

Reza Khoirul Wijaya Putra

FULLSTACK WEB DEVELOPER

I'm 17 years old, and I was born and raised in Karawang, Indonesia. I graduated from a vocational high school, and my hobby is coding. I enjoy taking on freelance projects, and I have three years of experience as a programmer. I am interested in the backend developer position, but I am also proficient in full-stack development using Laravel.

Experience

FREELANCE DEVELOPER 2023 - NOW

- Currently I am a freelance web developer, specifically a fullstack web developer.
- As a professional working programmer, I write code neatly and use code refactoring.

JUNIOR SOFTWARE DEVELOPER 2020 - 2022

- I reinforced the basic fundamentals of programming by understanding the concepts.
- I started learning computational thinking.
- I started learning data structures and algorithms.
- During COVID, it made me more interested in learning basic programming.
- I started to create a project that directly integrates with SQL and NO SQL databases.

LEARNING BY DOING 2019

- I learned excel for developers and learned logic and coding from Visual Basic Application programming.
- I learned conditioning, looping, algorithms, validation.

Certifications

- 1st place in the Karawang Regency LKS (Lomba Kompetensi Siswa) in website technology competition - 2022
- As a participant in the West Java Province LKS website technology competition - 2022
- 2nd place in the National of Muhammadiyah Vocational High School in website design competition - 2024
